

Dear Reader:

As you may have noticed, we are including a book review in each issue of Volume 24. We hope you will find them to be useful when you need to locate a reference or when you contemplate adding to your library. Reviews of both standard perfusion texts and new texts and works of general interest will be presented.

Consider submitting a review of a book you have found to be particularly helpful in your practice or of a new book you have discovered that would be of interest to perfusionists. The book reviews published in Volume 24 show you the format to use.

I hope each and every one of you will take time to enjoy the season. My best wishes for a joyful holiday season and a happy and productive 1994.

Sincerely,  
Phyllis Palmer, CCP  
Editor
